

A World of Thanks From Awaso Academy:

Greetings from Awaso Academy International! For the past years you have steadfastly been on a journey with the students of AAI. Regardless of the challenges we sometimes face, our story is one of a success. We have 277 students from pre-school to sixth grade with the majority being girls. They are receiving holistic education and the future looks promising. We are now at the threshold of Junior High come the next academic year. Our pioneers are ready and confident to cross over.

The school farm (vegetables, poultry, and animals) makes sustainability promising as we sell eggs and use the food we harvest to feed the students. In short, more than half of our students, who otherwise would have been on the street, have a positive learning environment, certified teachers, and a dedicated staff to inspire them. It is a 'home' because they look forward to going to school. What can we say? We owe you!

Again, please accept our profound appreciation and gratitude. You are a BEACON of hope for us. It is my hope that you will continue the journey with them by renewing your sponsorship. Your support means a lot for the education and future of our students.

We would like to wish all a Merry Christmas and a Happy New Year. Together we are making a difference!

Father Paul Mensah
